PROPOSED NEW RAILWAY STATION, CENTRAL LINE, PINELANDS - LANGA

Dear Sir,

Your request for information refers: -

This letter serves to confirm the existence of a proposed station between Pinelands and Langa, which your email to Mr. Hishaam Emeran references. It is true that the station was identified some time ago, but no firm decision has been made regarding the implementation of the station. This can only be done after the necessary planning studies are conducted.

However, the case for the station has been strengthened by the City of Cape Town's study for residential development on the Mowbray Golf Course linking up to the vacant land between Pinelands and Langa. The proposed station (named Rappenburg) was also considered and incorporated as part of this study. The next step will be for PRASA to do a feasibility study to check/confirm patronage.

The future rail extensions you refer to in PRASA's Corporate Plan, are part of PRASA's priorities to grow and expand the business. Feasibility studies were conducted for these rail extensions and a firm case for rail was established. However, this does not indicate that there is no need for the station under discussion - or any other future rail extensions - either currently or in the future. PRASA has a process in which proposed rail extensions/stations are prioritised for both planning and implementation. PRASA does this in collaboration with municipalities. The necessary studies will be done as soon as we acquire the necessary funding.

PRASA looks forward to a positive engagement in rail capacitation and development around the affected site. Such developments are encouraged and engagement can be initiated between the City of Cape Town, PRASA, the Developer and other interested and affected parties.
